---

Marshall: DOE's lead for furnace fans is the guy who led the meeting, Ron Majette. Each DOE rule lists the lead DOE staff person and their contact info. For your convenience, I've copied it out of the NOPR:

Mr. Ron Majette, U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, Building Technologies Program, EE-2J, 1000 Independence Avenue SW., Washington, DC, 20585-0121. Telephone: (202) 586-7935. Email: [Ronald.Majette@ee.doe.gov](mailto:Ronald.Majette@ee.doe.gov).

3 motor mfr reps were there:

Scott Durfee for NIDEC 314-595-8847 and [scott.durfee@nidec-motor.com](mailto:scott.durfee@nidec-motor.com)

Paul Lin from Regal 260-416-5472 [paul.lin@regalbeloit.com](mailto:paul.lin@regalbeloit.com)

Paul Selking from Regal 260 416- 5488 [paul.selking@regalbeloit.com](mailto:paul.selking@regalbeloit.com)

Marshall: My scanner is on the blink so I can't scan my copy for you. Let me know your US mail address and I'll make a photocopy and send it to you. Even easier, let me know who's address and number you are looking for and I'll email it to you.

Joanna

Sorry to be a nag but I would appreciate the list of the meeting attendees.

Thank you.

**Subject:** Re: LBNL paper on two-stage furnaces

Hi Marshall,

I didn't attend the furnace fan meeting in person, so I don't have the list. Andrew is going to look for his copy. Also, if you know the specific person you're trying to reach, I may have their contact information somewhere else.

Joanna

I was in attendance at the December 3<sup>rd</sup> DOE meeting. I have misplaced the attendance list. Do you have it? I need to reach a manufacturer of BPM motors.

Thank you for your help.

**Subject:** LBNL paper on two-stage furnaces

Here's a link to the LBNL paper on two-stage furnaces. The paper concludes that two-stage technology by itself does not save energy.
