I have approvals from Southern California Edison, SDG&E and PG&E. I don't have approval yet from SCG.

Thanks!

Do you know if all the CA utilities signing on?

As far as utility only letters I believe it is just CA and MA. The California Energy Commission, our

regulator, is also submitting a letter. There are advocate letters coming from NEEP, ASAP, NRDC, Earth Justice and NEEA. There are likely a few more but I am not sure.

Mary, do you have a list of who is signing on nationally? We are trying to finalize a sign-on to this and my supervisor wants to know who else is signing this or a similar letter. Thanks!

This is pretty dense reading for sure. There is one thing that caught my attention and that was the comment that there should be some focus on water efficiency due to the severe droughts we have been experiencing. There is another angle that could be promoted here. Electric generation consumes tremendous amounts of energy in the country so it would seem we could quantify water savings being achieved already even from those appliances that don't have water consumption directly.
