Two weeks would help. In light of Mary pushing for lab work, not just CEC, I'm not sure we can get away without any. That will surely set us back.

Hi Daniela,

8/9 is very aggressive. Are the other measures as involved as ours? I wouldn't mind two weeks later... Bo what do you think?

Please see below for the proposed schedule: I am thinking we can ask for some more time on the 8/9 date. Maybe even push to 8/14. Thoughts? Your call?

Subject: [EXTERNAL] PG&E Contracted Title 20 CASE Reports & Roadmaps - Proposed Schedule

Dear Appliance Standard Team,

Based upon the upcoming deadline for the Title 20 Standards Proposals we have put together a tentative schedule. Based upon the feedback we received from the CEC at the Research Plan meetings last Friday we are assuming that the deadline for the proposals is the end of August. The timing is tight, since there isn't a lot of time between now and then. For most of the topics we are proposing parallel reviews for the CEC and the IOUs to save time. For Solar Inverters and Set Top Boxes I am proposing sequential reviews since we are not as far along on those topics. Please review and let me know if you have any questions or comments. Thanks!

Mary
