SUBJECT: APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U338E) FOR APPROVAL OF ENERGY EFFICIENCY ROLLING PORTFOLIO BUSINESS PLAN AND RELATED MATTERS. CCE-DR01

QUESTION 22

In Appendix 2 (2015 WE&T PIP Addendum) of the joint February 23, 2015 Advice Letter on the WE&T Program Implementation Plan Addendum (PG&E Advice 3567-G/4592-E; SDG&E Advice 3179-E; SCE Advice 3179-E; SoCalGas Advice 4765-G), the IOUs stated that they would prepare the following studies: (1) “WE&T Skill Standards for IOU Resource Program,” (2) “CALCTP Contractor Training Assessment,” and (3) the “SCE and SDG&E Lighting Control Pilot Program.”

- (a) What is the status of each of these studies? If a study has not been completed, please state when the study is expected to be complete.
- (b) Please provide copies of any reports, memorandum, contracts, studies, updates, data, emails, correspondence or other documents related to these studies.

ANSWER 22

PG&E objects to this request on the basis that it misstates the advice letter. The IOUs did not state that "they would prepare the following studies". Two of the three studies were led by Energy Division.

(1) “WE&T Skill Standards for IOU Resource Program”

- (a) What is the status of each of these studies? If a study has not been completed, please state when the study is expected to be complete.

The “WE&T Skill Standards for IOU Resource Programs” Study was an Energy Division-led contract with Opinion Dynamics Corporation. This contract is made up of multiple studies/phases. Two of these studies/phases were completed in 2016. Phases 3 and 4 morphed into the Responsible Contractor Policy Study, which is currently underway.

- (b) Please provide copies of any reports, memorandum, contracts, studies, updates, data, emails, correspondence or other documents related to these studies.

PG&E objects to this request pursuant to Rule 10.1 of the Commission's Rules of Practice and Procedure on the grounds that the burden, expense, and intrusiveness of this request outweighs the likelihood that the information sought will lead to the discovery of admissible evidence. PG&E will not produce in response to this request "reports, memorandum, contracts, emails or correspondence related to these studies" on this basis.

Notwithstanding and subject to this objection, PG&E responds: the final report and relevant documents are **attached** as part of this data request. Completed studies are also posted to the CPUC's Public Documents Area (PDA) site at www.energydataweb.com/cpuc/search.aspx.

(2) "CALCTP Contractor Training Assessment"

(a) What is the status of each of these studies? If a study has not been completed, please state when the study is expected to be complete.

The "CALCTP Contractor Training Assessment" (formally known as the "Lighting Controls Training Assessment") is a statewide IOU-led study. It was completed by ASWB Engineering in 2016.

(b) Please provide copies of any reports, memorandum, contracts, studies, updates, data, emails, correspondence or other documents related to these studies.

PG&E objects to this request pursuant to Rule 10.1 of the Commission's Rules of Practice and Procedure on the grounds that the burden, expense, and intrusiveness of this request outweighs the likelihood that the information sought will lead to the discovery of admissible evidence.

Notwithstanding and subject to these objections, PG&E responds: the final report and relevant documents are **attached** as part of this data request. Completed studies are also posted to the CPUC's Public Documents Area (PDA) site at www.energydataweb.com/cpuc/search.aspx.

(3) "SCE and SDG&E Lighting Control Pilot Program"

(a) What is the status of each of these studies? If a study has not been completed, please state when the study is expected to be complete.

The study has not been completed. PG&E refers CEE to the SCE and SDG&E data request response for an update.

(b) Please provide copies of any reports, memorandum, contracts, studies, updates, data, emails, correspondence or other documents related to these studies.

PG&E objects to this request pursuant to Rule 10.1 of the Commission's Rules of Practice and Procedure on the grounds that the burden, expense, and intrusiveness of this request outweighs the likelihood that the information sought will lead to the discovery of admissible evidence.

Notwithstanding and subject to these objections, PG&E responds: refer to the SCE and SDG&E data request response for an update.
