**SUBJECT: APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U338E) FOR APPROVAL OF ENERGY EFFICIENCY ROLLING PORTFOLIO BUSINESS PLAN AND RELATED MATTERS. CCE-DR01**

**QUESTION 25**

In its comments on the draft Business Plans submitted during the CAEECC review, CEE recommended expressly identifying lost energy savings from poorly installed retrofits as a barrier to meeting each sector’s energy efficiency goals. Please explain why the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan does not disclose this as a barrier to each sector’s energy efficiency goals.

**ANSWER 25**

Under the CAEECC review process, program administrators are not required to accept or implement participant comments. CAEECC’s role is to advise program administrators, while program administrators continue to be responsible for the content of what is filed at the CPUC.<sup>11</sup> In its Business Plan, PG&E focused on barriers that impede customer uptake of energy efficiency investments.
