I've attached also the AGA comment letter and the APGA draft comment letters so you can see the breadth of issues.

Dan,

If you have a couple of minutes I'd like to come by your office to review the attached comments in response to the DOE RFI. I do not believe that we should be signing on to these comments with the other IOU's and normally I would just make that decision for lower level issues but I want to run this one by you and determine our strategy for filing our own comments if we do not join the others in CA.

Got time at about 1:45?

Sue
