Hi Bijit,

Thank you again for taking the time to discuss this effort.

One quick note: NYSErDA is still considering whether to weigh in on this matter, and if we do jump in, how best to do that. With that in mind, your help and support are greatly appreciated. I will loop all of you in as soon as we have an answer from our internal folks early next week.

And thank you in advance for connecting us with the CEC folks. Our decision-makers are interested to find out how they are considering weighing in here.

Thanks.

Chris

Hi Chris,

Thanks for your time today to discuss this effort – it was good connecting with you. I am really glad that NYSErDA will be weighing in on this RFI in some way. Given the political angle of the NY process, we understand that NYSErDA may opt to go with another letter. If the political people decide to use the CA IOU letter as the basis for a NYSErDA letter, please inform Mary and Mike (cc-ed here) no later than Thursday, July 13, if possible. As I mentioned, we could modify the draft letter to include references to NYSErDA and include NY climate policies in place of CA. Here are the other items I captured from our conversation:

- I will send you an updated CA IOU letter in both track changes and a clean version so you can see the updates we have made since the version I sent to you. As we discussed, these were mostly clarifying modifications, the substance of the comments is the same.

- You were interested in connecting with the California Energy Commission to potentially align the messaging of NYSERDA and CEC letters. **Mary**, would you like to facilitate that connection with CEC or should ES connect Kristen to Chris?

I think that is it. Let me know if there is anything else.

Best,
Bijit
