**To:** Amrane, Karim  
**Cc:** Steve Nadel; [Karen.Meyers@rheem.com](mailto:Karen.Meyers@rheem.com)  
**Subject:** Re: Draft agenda for RTU mtg next week

Karim: Please do send the call in number - we'll have a couple on the phone. I expect 7 of us in person - Steve, Harvey, me, Joanna, Louis Starr, Tim Ballo and Rodney. Meg Waltner and Marshall Hunt on the phone.

See you Thursday.

Andrew

Steve,

The agenda is fine. I put it in a Word document (see attached) and also clarified that item 3(f)(ii) includes both energy and economic analyses. Please advise as to how many will be attending the meeting in person from your side. I will provide a call-in number as well. Thank you.

Karim

**Subject:** Draft agenda for RTU mtg next week

Karim and Karen,

Below is a draft agenda for our meeting next week. I welcome your comments. Andrew is crunching on a deadline today and will be commenting in parallel with you.

Steve

1. Welcome, introductions
2. RegNeg update – John Cymbalski, assuming he attends
3. Initial discussion on issues – positions, creative ideas, info that would be useful to help resolve
  - a. Furnace efficiency
  - b. Ventilation energy
    - i. How do we incorporate into the analysis and perhaps the standard without changing the test procedure?
    - ii. Relationship between the fan and rooftop rules. [Note: Advocates are still doing research on the fan rule and how it should relate to the rooftop standard. We may have some questions for you at the meeting but are not yet prepared to negotiate on this item.]
  - c. IEER
    - i. Level or levels
    - ii. Effective date or dates

- d. EER – hold the same but address future use
- e. Reporting of EER at four IEER testing points/modeling
- f. Issues for the future
  - i. Test procedures
  - ii. Relationship between ASHRAE and DOE analyses

Steve
